WHAT IS NINJA SELLING?

Ninja Selling is a sales system developed by Larry Kendall and The Group, Inc., Real Estate in Colorado and is now taught in the United States, Canada, and Spain. The system is based on a philosophy of building relationships, listening to the customer, and then helping them achieve their goals. It is less about selling and more about how to create value for people.

It is called Ninja Selling because one of The Group sales partners (Jim Dunlap) who helped develop the system was nicknamed “The Ninja” by the staff in his office. Jimmy D. had great sales volumes, great customer satisfaction and referrals and yet seemed to have a life outside of his career. He had by far the highest income per hour of any salesperson in the company. Larry Kendall began documenting the sales systems used by the original Ninja and other top sales people at The Group. Ninja Selling is the result.

The mission of Ninja Selling is to help people increase their income per hour through higher customer satisfaction and referrals as well as enhanced sales systems and communication skills.

Ninja Selling is a sales system that gives predictable results. Sales associates know that “when they work the system, the system works for them”, and they can be “On-Purpose” REALTORS® versus “On-Accident” REALTORS®.

THERE ARE FOUR UNIQUE PRINCIPLES OF NINJA SELLING:

1. **Stop Selling! Start creating value.**
2. **Business Strategy: Focus primarily on people who know you.**
3. **Customer Centric: It’s all about them, not about you.**
4. **Personal Mastery: When you get better, your business gets better.**

Ninja Selling is based on a belief in abundance and the power of focused energy and synergy with others. The symbol used for Ninja Selling is the Japanese symbol for “Ki” or the universal energy (spirit) that connects all things. Ninja Selling is based in the philosophy of the non-violent martial art, Aikido – the way of harmonizing energies.

Your *true worth* is determined by how much more you give in value than you receive in payment.

80/20 THINKING

1. 80/20 Principle – A minority of causes or effort leads to a majority of the results.

80 % of what you achieve in your work comes from 20% of the time spent. Four-fifths of your effort is wasted.

2. History of the 80/20 Principle

1897 – Vilfredo Pareto, Italian economist, discovers that 20% of the world’s population enjoys 80% of the world’s wealth. He later confirms the 80/20 principle is at work in most areas of life – 20% of land produces 80% of the food, 20% of plants produce 80% of the oxygen, etc.

- o 80/20 Concept later called:
 - Pareto’s Law
 - Pareto’s Principle
 - 80/20 Rule
 - Principle of Least Effort

1949 – George K. Zipf, Harvard Professor, discovers that resources naturally arrange themselves to minimize work so that 20% to 30% of any resource accounts for 70% to 80% of the activity. Calls it “Principle of Least Effort”.

1951 – Joseph Moses Juran writes his classic industrial production book, *Quality Control Handbook*, pointing out that 80% of quality losses stem from only 20% of the causes. Juran goes to Japan with W. Edwards Deming and uses the principles to build Japan into a world economic power.

1963 – IBM discovers that 80% of a computer’s time is spent executing only the 20% most popular operating codes. IBM makes this 20% more easily accessible so IBM’s computers operate faster and more efficiently than their competitors. Result: IBM becomes world leader in computers.

1981 – Jack Welch becomes CEO of General Electric and notices that 80% of their profits are coming from just 30 of the over 300 companies GE owns. He closes or sells-off over 250 companies and focuses all resources on just the most profitable companies. His vision: GE will only own companies that are profitable and #1 or #2 in their markets – or can get there within five years. Result: GE reinvents itself and becomes one of the most successful companies in history. Jack Welch becomes a legend.

80/20 THINKING

3. Examples of the 80/20 Principle

20% of motorists cause 80% of accidents

20% of beer drinkers drink 80% of all beer

20% of people who marry are involved in 80% of all divorces

20% of clothes in a person's closet are worn 80% of the time

20% of carpets get 80% of the wear

We spend 80% of our time in 20% of our house

80% of the commissions are earned by 20% of the REALTORS®

80% of our income comes from 20% of our activities

80% of a seller's decision to list with us is based on 20% of what we say/do

The relationship isn't always exactly 80/20. For example, only 10 stocks (2%) of the Standard and Poors 500 Stock Index accounted for 100% of the gain in 1999.

4. The Key: Being able to distinguish the "Vital Few" from the "Trivial Many"

Ninja Philosophy: *"What are the vital few that will give me the greatest results for the time/energy invested? What are the 20% that will yield the 80%?"*

5. Focus on

Finding and doing the "Vital Few"

Simplicity

Leverage – do more of what works; avoid what doesn't work for you

Eliminate waste – start a "stop doing list."

80/20 THINKING

6. Waste

Defects – e.g. listings that don't sell

Over production/duplication

Inventories

Unnecessary processing

Unnecessary movement of people – e.g. showing buyers more homes than necessary

Unnecessary movement of goods

Waiting/unnecessary meetings/meetings that focus on “the trivial many”

Design of goods and services which do not meet user needs

7. Practicing 80/20 Thinking

Look at your business – what gives you the biggest bang for your time/\$?

- o Source of business
- o Types of customers – buyers, sellers, investors
- o Types of activities – listing, selling, prospecting
- o Skills/systems that work (or don't work)
- o What are my highest income/hour activities?

80/20 THINKING

Find your niche – something you enjoy and are good at

- o What activities do you enjoy in this business?
- o What activities are you good at?
- o What are you not good at? Are you willing to learn?
- o If you don't enjoy doing the "vital few" are you willing to:
 - Do it anyway?
 - Delegate it?
 - Hire someone to do it?
 - Change careers?

Each day look at your "Goals and To Do Lists" with 80/20 Thinking and focus on the "Vital Few".

Remember:

Life has no rehearsals, only performances.

Time is life.

Time (life) is our most valuable asset.

80/20 thinking can save you time.

80/20 thinking can save your life!

GODDARD'S LIST

At the age of 15, John Goddard listed 127 goals he wished to experience or achieve in his lifetime. Thirty years later, at age 45, an article in Look Magazine chronicled his life and accomplishments. Notice at that point in time, over 100 of the goals are checked off. Ultimately, Dr. Goddard had a list of over 600 goals and has achieved over 520 of them. Dr. Goddard passed away on May 17, 2013 at the age of 88.

Program Yourself for Success

Dr. John Goddard believed writing down your goals is a key to programming your brain and your life. He recommended everyone create a "Life List". He said, "When you establish specific, compelling goals, you engage a mysterious force that magnetically attracts the people and experiences necessary to accomplish your objectives. Unfortunately, the opposite is also true. If you neglect making conscious choices about what you want your life to become, you will experience an ambiguous existence, enduring whatever happens to you or becoming a part of some else's plan for your life."

We become what we think about.

KEY LEARNING POINTS - LESSON #2: YOUR BRAIN AND YOUR BELIEF SYSTEM

Please put a check beside all learning points you understand thoroughly.

- At any given point in time I choose to either be a victim or a player.
- My energy quadrants – high positive is the performance quadrant. Victims get stuck on the negative side.
- I have three brains: conscious (my awareness), non-conscious (my program), creative non-conscious (runs my program – forces me to behave according to my program).
- Programming my non-conscious occurs in the present time.
- My results formula: thoughts, beliefs, action, and results.
- Responsibility and Response-Ability.
- The quality of my life is a function of my ability to: program my non-conscious, program my Reticular Activating System (RAS), understand the quantum field, and take action.
- Understand my RAS: What I focus on expands!
- Understand energy transfer: Humans send and receive energy at a frequency – the “vibe”. The “vibe” is a function of what I am thinking and feeling.
- What I see, hear, feel, think, and the people I hang out with program my mind.
- Eight keys to proper programming. The three most important are: my goal, stated in the positive, and present tense.
- Financial goals and affirmations: What I focus on expands. 30 days or more is key.
- What happens when the voices get aligned? Miracles!
- Pendulum: What I focus on expands and “I move it first with my mind.”

“ what you focus on expands. ”

Distinction: The difference between “Pursue” and “Proactive” is _____ .

Five Ninja Laws of Success (from the *Go-Giver* by Bob Burg and John David Mann)

- **The Law of Value:** Your true worth is determined by how much more you give in value than you receive in payment.
- **The Law of Compensation:** Your income is determined by how many people you serve and how well you serve them.
- **The Law of Influence:** Your influence is determined by how abundantly you place other people’s interests first.
- **The Law of Authenticity:** The most valuable gift you have to offer is yourself.
- **The Law of Receptivity:** The key to effective giving is to stay open to receiving.

Five Rules of Ninja Selling

- Show up.
- Pay attention – listen to your customer.
- Tell the truth and keep your commitments.
- Create value for your customers.
- Don’t get attached to the outcome.

THE NINJA MINDSET AND MISSION

Five Economic Laws

- Supply and demand generally seek balance over time.
- Profit is the cost today of being in business tomorrow.
- Profit breeds competition.
- Perceived excessive profits breed ruinous competition.
- Profits ultimately flow to those who create the most value.

6. Adding Value/Building Your Brand:

Survey of Buying Decisions:

- _____ % Buy based on lowest price
- _____ % Buy based on highest price
- _____ % Buy based on value (perceived relationship of price and quality)

THE NINJA MINDSET AND MISSION

Four Pillars of a Brand:

1. _____
2. _____
3. _____
4. _____

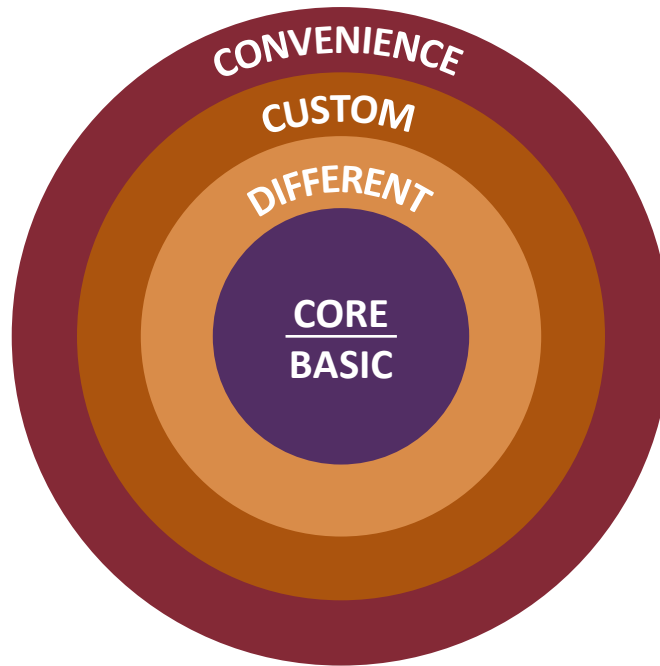

Ninja Strategy: Be differentiated by being more relevant. Provide the customer what they want and you will be known for “Fabled Service”!

- Top six services sellers want (*source: RealTrends and Harris Interactive*):
 1. Access to current active and sold data.
 2. A pre-listing packet with information about the market, sales process and the REALTOR®’s qualifications so they can do due diligence.
 3. A pricing and marketing system that will give predictable results.
 4. A proactive, competent REALTOR® the seller can trust to look out for their needs and help them navigate the process.
 5. A smooth transaction that closes on time with no or few surprises.
 6. Consistent communication from their REALTOR®.

- Top six services buyers want (*source: RealTrends and Harris Interactive*):
 1. Access to current active and sold data.
 2. A buyer packet with information about the buyer process, including contracts, and the REALTOR®’s qualifications so the buyer can do due diligence.
 3. A process to find the right house at the right price without missing anything.
 4. A proactive, competent REALTOR® they can trust to look out for their needs and help them navigate the process.
 5. A smooth transaction that closes on time with no or few surprises.
 6. Consistent communication from their REALTOR®.

THE NINJA MINDSET AND MISSION

Building Your Brand (the onion):

Building a Brand by Creating Value (exercise):

- Basic Services (services provided by most REALTORS®).
- Differentiated Services (services provided by you that are different (or in addition to) basic services.
- Customized Services (services that you provide that are unique to that particular seller/buyer).
- Convenience Services (services you provide that make the process easier for buyers/sellers compared to working with other REALTORS®).

KEY LEARNING POINTS - LESSON #3: THE NINJA MINDSET AND MISSION

Please put a check beside all learning points you understand thoroughly.

- The Mastery Ladder (Ninja Path): Convert knowledge into skill through practice.
- Three Success Keys: mindset, skillset, and actions.
- Three Core Beliefs: real estate as a career, my company, and myself.
- Four Principles of Ninja Selling: stop selling and start attracting, focus on people who know me, be customer centric, and commit to mastery.
- The Pursuer-Distancer Dance.
- Stop selling. Start attracting.
- I attract people by creating value.
- I create value by solving problems (pain) and making people feel good (pleasure).
- People are willing to pay money for two things: solve problems and feel good.
- Ask F.O.R.D. questions and listen for change (pain or pleasure).
- Five Rules of Ninja Selling: show up, pay attention and listen, tell the truth and keep my commitments, create value, and don't get attached to the outcome.
- If I'm creating value, I'm perceived as being proactive. If I'm not creating value, I'm perceived as pursuing.
- Most people make their buying decisions based on value (the relationship between price and quality). If I increase the quality of my service, I will seldom be asked about my fee.
- Four Pillars of Building a Brand: recognition, reputation, relevance, and differentiation.

“ live simple.
think big.
make a difference. ”

THESE PEOPLE PROBABLY WANT TO BUY/SELL REAL ESTATE THIS YEAR

Take out your list of people you know. Go through the names one at a time. Bring the person into your consciousness. Think about them and ask yourself these questions regarding their situation. If they fit that particular question, write the number of that question next to their name. After going through your entire list, you should have a clear picture of the potential real estate needs of your customers for next year – and the start of a business plan for yourself. Next, start contacting your customers using the F.O.R.D. system of questions. When they respond to your F.O.R.D. questions, look for changes going on in their lives that may affect their real estate.

How many of the people you know:

1. Have had an increase in family size this year?
2. Have children age 10 and under? (Give your kids a chance brochure)
3. Have teenage children?
4. Have children who have left home recently?
5. Are living “below their means”?
6. Have lived in their same house seven years or more?
7. Have had their company expand in the past year?
8. Have had their company downsize in the past year?
9. Have received a substantial inheritance?
10. Own a building lot?
11. Are getting married?
12. Are getting divorced?
13. Are getting divorced and married?
14. Have a dream for “Wake-up Money”?
15. Have a dream to live “anywhere”?
16. Have a commute of over _____ hours per day.

NINJA WEEKLY ROUTINE

1. Schedule one hour weekly planning meeting with yourself. Review your goals.
2. Schedule time to exercise each day
3. Get to the office by 8:00 a.m. each day
4. Schedule two “Real Estate Reviews” (unsolicited CMA’s) for this week
5. Schedule two hours for “Customer Service Calls” – call all sellers, U/C buyers, active buyers, and closed customers (once a month for one year). Recommend this time be scheduled in the morning. Use five-step calling process
6. Schedule two hours for other calls – birthdays, anniversaries, 8x8, etc. See 12 reasons to call that add value. Use five-step calling process.
7. Send 10 notes – thank-you, congratulations, thinking of you
8. Schedule two lunches or breakfasts this week with a prospective referral source
9. Schedule two one-hour sessions for paperwork cleanup with your assistant/escrow officer
10. Schedule one hour to review your customer lists and compare with “16 reasons why people want to buy real estate.” Make five calls. Works best after touring properties.
11. Visit with 50 people this week (live) – ask F.O.R.D. questions and LISTEN for change.
12. Build your mailing list of people who know you to a minimum of 200. Send them something of value at least once a month (recommend Insider).
13. If you are disciplined to have this routine on a weekly basis, you should earn a minimum of \$1,000 in gross commission income for each person on your mailing list (i.e., 200 names equal \$200,000 per year). This system assumes: an average sales price of \$200,000 or more; all people on your list know, like, and trust you; you accomplish every item weekly.

Remember:

- o It’s not just the people you know it’s the people they know. Leverage your magic 50 with referrals.
- o Review your 16 reasons “These People Probably Want To Buy or Sell Real Estate” each week in your weekly planning meeting and list the people who meet the criteria. Make sure you are in “FLOW” with them.
- o Listen! They should have the “time of possession”

KEY LEARNING POINTS - LESSON #4: FLOW!

Please put a check beside all learning points you understand thoroughly.

- Morning Ritual: gratitudes, read something positive, affirmations, and two personal notes.
- Ninja is the most efficient business strategy based on conversion ratios.
- People prefer to work with people they know, like, trust, and are in the flow with.
- People pick their REALTOR® primarily based on flow.
- There are two parts to my business: doing the business and generating the business.
- My database is the central nervous system of my business.
- Ninja 9:
 1. Gratitudes
 2. Show up! People who show up earn more.
 3. Write two personal notes (or more) per day.
 4. Focus on my Hot List daily.
 5. Focus on my Warm List daily.
 6. Make customer service calls using the five-step calling process
 7. Have two real estate reviews per week
 8. Have 50 live “interviews” per week
 9. Send my mailings with “intention” – bring them into my mind
- The One Thing that most powers my business is 50 live interviews/week.
- What holds me back? Fear.
 1. Fear is the absence of love.
 2. When I’m afraid, I’m thinking about myself
 3. When I focus on my helping my customers/friends, my fears go away.
- I don’t need to do everything. I just need to do SOMETHING!

6. The Simple Ninja Success Formula

Take your annual financial goal of \$ _____ and divide by 1,000
_____ this result is the number of people you need in your
database to make your financial goal using the Ninja Selling System

Simple Success Formula

- o Build your database to the right size
- o Become the REALTOR® of Choice via FLOW/Value
- o Develop the skills and systems to handle the business

7. Your Database is your “Central Nervous System”

Ideas on prioritizing a large database:

Qualify your database- A, B, C
Warm/Hot Lists

Ideas on building a small database to be larger:

see page 71

*(Note: if you add just two names a week of people who know, like, and trust you, you are adding 100 people
in a year which = \$100,000/year of income.)*

Databases depreciate at about _____ % per year

21 POINT BUSINESS PLAN

1. Do I have a database of names, addresses, phone #'s and F.O.R.D. information readily available? Is it up to date?
2. Am I interviewing (live) 50 people per week?
3. Do I have a scheduled time each week/day when I communicate with my customers/ friends (“Hour of Power”)? Do I do this consistently? Do I meet with my customers once a year for a “review” of their real estate?
4. What are my systems for generating a continuous flow of buyers and sellers? Am I at the “cause” of what’s happening or the “effect” of what’s happening?
5. Do I have a “Hot List” and “Warm List”?
6. Do I have a Buyer Interview Sheet, Buyer Packet and Pre-Listing Interview readily available?
7. Have I mastered my “Ninja Selling” scripts for buyers, sellers, and investors?
8. Do I know how to use the MLS/County Records to do an accurate CMA? Do I use the Visual Pricing Tools (odds of selling, buying patterns, and price lines)?
9. Do I use a Listing Packet and a printed CMA consultation? Have I trained my assistant as to how I want these put together (order of pages, etc.) so they can be generated quickly and without “brain damage”?
10. **Does my Listing Consultation:**
 - Clearly show the seller their odds of selling their home?
 - Show them how to “position their home to sell” using “Value Positioning”?
 - Have a Marketing Plan that differentiates me from my competition?
 - Demonstrate how I add value to the seller? What is my “Wow!”?
 - Show at least five things that I and my company do for the seller that my competitors don’t? Do I dress up for the interview?

21 POINT BUSINESS PLAN

11. Do I know my “Sweet 16” listing questions? Am I prepared to answer the most common “objections to listing” and “pricing objections?”
12. Do I have pricing and staging videos (David Knox videos) readily available?
13. Do I have a marketing plan/checklist for my listings?
14. Do I have questions and visual aids to help shift a seller from a “price shopping” mindset to a “results shopping” mindset?
15. Have I mastered the 10-Step Buyer Process?
16. Do I have “routines” that keep me in balance and “rituals” that help me perform at my best?
17. Do I have several Relocation Packages, Buyer Packages, and Listing Packages at my desk so they are easily accessible when I need them?
18. Do I have my most common letters “standardized” so I don’t need to create an original every time I want to communicate with someone?
19. Do I know my product, my market and my competition?
20. Is my financial house in order so I am not distracted? Do I have a set of books so I know if my business is profitable? Are my taxes paid? Do I have a “feel good” account? Do I have wealth creation on “automatic pilot”? Do I have a Goal Contract?
21. Do I have Goals and an Activity Plan? Do I know where my business comes from specifically? Do I have a “Life List”? A mentor?

P.I.E. TIME

P = Three ingredients: You, a customer, a contract.

I = Time you invest creating P time.

Flow activities – calls, face to face meetings, mailings, and hand written notes.

E = Everything else.

1. Gather your data at the end of EACH day...enter it in this format

DAYS WORKED	DATE	TOTAL	I	P
1	August 1	8	2	0
2	August 2	7	0	0
3	August 3	6	1	1
4	August 4	8	2	2
*	*	*	*	*
26	August 31	9	2	2
Total Hours		181	51	20
Percentages		100%	28%	11%

Average hours worked per day = $181/26=6.96$ hours per day (P.I.E. total)

2. Divide the total number of hours per month (181) by the number of days worked (26) to get the average hours worked per day in subject month (August).
3. Calculate “E” time by adding the total “I” hours (51), and the total “P” hours (20) to get 71. Now subtract 71 (I + P) from total hours (181) to get your “E” time; Total minus (I + P) = E or in the above example is would look like this; $181 - 71 = 110$ (E). Now that you know your “E” time is 110, “I” time is 51 and “P” time is 20, you can work with your data.
4. Calculate the hours per day that you will never get paid for (E) like this: Take total “E” hours (110) and divide by total hours worked (181); $110/181=61\%$. Next take 61% of the average work day (6.96) and you get 4.25 hours, $(.61 \times 6.96 \text{ hrs.}=4.25 \text{ hours})$.

P.I.E. TIME

- Finally calculate the ratio of “I” time you need to generate one hour of “P” time.
Remember this: You can create “I” time, but not “P” time, so our goal is to determine how much “I” time activities we need to earn the income we want.

Stay with it, we are almost there!

- We will now calculate the “Yield Ratio” as follows: Divide total “I” hours (51) by the total “P” hours (20): $51/20=2.5$ which means you need 2.5 hours of “I” time to generate one hour of “P” time. Got it? If so, you are in the process of becoming a Ninja!

To earn \$200,000 using the previous analysis...

Assumptions: Work five days a week and take four weeks vacation.

New listings and sales in the past 30-days	3
Average price	\$300,000
Total dollar volume	\$900,000
Total agent income (3% gross, 70% split to agent)	\$18,900
Hours of “P” time for last 30-days	20
“P” time value per hour ($\$18,900/20$)	\$945/hour
12-month financial goal	\$200,000
Annual “P” hours needed to reach goal ($\$200,000/\945)	212 hours of “P”
Yield ratio (from above)	2.5 to 1
“I” hours necessary per year at 212×2.5	530 hours per year
“I” hours needed per week ($530/48$ weeks)	11 hours per week
“I” hours needed per work day (11 hours/5 days)	2.2 hours of “I” per day

***Now you know how much “I” time you need per day.
Remember: You can control “I” time. You can’t control “P” time.***

Nine Habits for Success in “Giving the Business”

*We become what we do repeatedly.
Excellence, therefore, is not an act.*

It is a habit.

[ARISTOTLE]

- 1. Daily Gratitudes**
- 2. Show up!**

Stop opening my email first. Resist the addiction! Instead, do one hour of productive work first. Work “On” my business in the morning. Work “In” my business in the afternoon.
- 3. Write two personal notes.**
- 4. Focus on my Hot List daily.**

“Who can I write a contract with this week?”
- 5. Focus on my Warm List daily.**
- 6. Focus on my Customer Service Calls weekly.**
- 7. Schedule two Real Estate Reviews this week.**
- 8. Schedule 50 live contacts this week.**
- 9. Review my database for property matches (weekly) and with my newsletter (monthly).**

What holds me back from doing this? Fear?
What is fear? Fear is the absence of love.
Get into a state of love. How can I make someone’s day?
The fear goes away.

KEY LEARNING POINTS - LESSON #5: BUSINESS PLAN

Please put a check beside all learning points you understand thoroughly.

- I know my business using the “Analysis of My Business” tool
- Every name in my database is worth \$1,000/year in gross commission income when I work the Ninja System.
- My simple Success Formula is to:
 1. Build my database to the right size
 2. Become the REALTOR® of Choice via FLOW and value
 3. Develop the skills and systems to handle the business
- My database depreciates 15% per year so I need to keep adding people who know me, like me, and trust me.
- My database is the central nervous system of my business.

FOUR WAYS TO MEASURE CUSTOMER SERVICE

1. Did transaction close on time – according to original contract dates?

Research shows this is the single most important thing to buyers and sellers.

2. Did you receive a referral from them by the end of the transaction?

- Give “fabled Service” - service that is so great they will tell stories about you to their friends and family. You will need to provide a 9 or 10 level of service (on a 10-point scale) to earn a referral.

If you are doing surveys, the “Ultimate Question” is: “On a scale of 1 to 10 with 10 being the most likely, how likely are you to recommend _____ (REALTOR®) to your family and friends?”

The research shows a 9 or 10 means they will refer you; and 7 or 8 means they will be neutral about referring you; and a 6 or less means they will actually recommend people not use you. *(Source: The Ultimate Question by Fred Reichheld).*

- Be consistent. Consistency is the key to referrals. They must feel you can deliver this high level of service consistently or they won’t refer you. For them to refer you to their friends, requires them to take a risk. People will only refer you if they feel you will make them “look good” by delivering the same level of service consistently.
- Ask for referrals. Let them know that your goal is to provide such a high level of service to them that they will be comfortable referring you to their family and friends.

3. Did you call them first during the transaction (being proactive)?

If they call you first to find out what’s going on, you are failing!

4. Did they send you a testimonial card, letter, or email?

INFORMATION PREFERENCE CHECKLIST

Put a check next to each item that is basically true for you.
Don't think about the item too long – your first impression is usually the most accurate.

- On an evening when I don't have anything else to do, I like to watch TV or videos.
- I use visual images to remember names.
- I like to read books and magazines.
- I prefer to get written instructions rather than oral ones.
- I write lists to myself of things I have to do.
- I follow recipes closely when I am cooking.
- I can easily put together models and toys if I have written instructions.
- When it comes to playing games, I prefer word games like Scrabble.
- I am very concerned about the way I look.
- I like to go to art exhibits and museum displays.
- I keep a diary or a written record of what I have been doing.
- I often admire the photographs and artwork used in advertisements.
- I review for a test by writing down a summary of all pertinent points.

MATCHING PREDICATES

As a listener, you can determine what portion of experience a person is attending to and representing consciously by the words they use. People tend to speak in predicate sets (predicates are verbs, adverbs and adjectives) and such words usually specify the processes of seeing, hearing, feeling, tasting and smelling.

1. For instance, when a person is talking about a particular experience in visual terms, the following words may be used:

perspective	new way of looking at	see, look, observe, image	
appear, watch	get the picture	paint a picture	frame
visualize	clear, vivid	flash, focus	brilliant
light, dark	vague	hazy, foggy	shine, bright
sparkling	glazed	colorful	hues
scene	horizon	photographic	

2. An experience may be related in auditory terms:

sounds like	harmonize	hear, speak	listen
tell, talk, say	question	tune-in, tune out	scream, shrill, screech
volume, frequency	shout, amplify	give an ear to	rhythm, melody
raucous noise	musical	cacophony of sound	dialogue
symphony	tone		

3. A person may talk about something using kinesthetic words (feeling predicates):

made contact with	in touch with	out of touch with	have a handle on
smooth, rough	shook me up	stumbling block	toughened, softened
tripped me up	connect with	geared up for	keep abreast of
tight, tense	bond	stuck, cemented	warm
flowing	solid	excited	hurt
loaded, unloaded, dumped		sensitive	a feeling person
get a grasp of the situation			

4. Words that specify the processes of tasting and smelling include:

odor, scent	get my teeth into	that left a sour taste	pungent
smell, sniff	bitter pill to swallow	salty	sweet, sour
stale	fishy	fresh	
bit off more than could chew			

KEY LEARNING POINTS - LESSON #6: CUSTOMER CENTRIC

Please put a check beside all learning points you understand thoroughly.

- The difference between the golden rule and the platinum rule.
- The four basic personality types: power, party, peace, perfection and how they make decisions.
- The four-step Ninja Sales Process: connection, information, presentation, and solution.
- I control the process. My customer controls the decisions.
- For me to control the process, I need a process.
- Internal and external dialogues, pretend states, and “Magic Wand”.
- Within the first two minutes connect and take control of the process.
- The three-step connection process: enroll, acknowledge, and who you are.
- Information step goals: discover pain/pleasure
- It’s not what I say. It’s what I ask.
- Question sequence: Ask foundational (prior learning) questions first.
- Diagnostic questions are: who, what, when, where, why, and how.
- The quality of communication – 7% words, 38% tone, 55% body language
- Three learning modalities: visual, auditory, and kinesthetic.
- Three Rules of a Powerful Presentation: showing is better than telling, asking is better than telling, and it matters who says it.

GRATITUDE RESEARCH

BY DR. ROBERT EMMONS, UC DAVIS

1. Gratitude Journals

In an experimental comparison, those who kept gratitude journals on a weekly basis exercised more regularly, reported fewer physical symptoms, felt better about their lives as a whole, and were more optimistic about the upcoming week compared to those who recorded hassles or neutral life events.

2. Goals

A related benefit was observed in the realm of personal goal attainment: Participants who kept gratitude lists were more likely to have made progress toward important personal goals (academic, interpersonal and health-based).

3. Mindset

A daily gratitude intervention (self-guided exercises) with young adults resulted in higher reported levels of the positive states of alertness, enthusiasm, determination, attentiveness and energy.

4. Giving

Participants in the daily gratitude condition were more likely to report having helped someone with a personal problem or having offered emotional support to another.

5. Health

In a sample of adults with neuromuscular disease, a 21-day gratitude intervention resulted in greater amounts of high energy positive moods, a greater sense of feeling connected to others, more optimistic ratings of one's life, and better sleep duration and sleep quality, relative to a control group.

GRATITUDE RESEARCH

BY DR. ROBERT EMMONS, UC DAVIS

6. Well-Being

Grateful people report higher levels of positive emotions, life satisfaction, vitality, optimism and lower levels of depression and stress. The disposition toward gratitude appears to enhance pleasant feeling states more than it diminishes unpleasant emotions. Grateful people do not deny or ignore the negative aspects of life.

7. Social

People with a strong disposition toward gratitude have the capacity to be empathic and to take the perspective of others. They are rated as more generous and more helpful by people in their social networks.

8. Spirituality

Those who regularly attend religious services and engage in religious activities, such as prayer or reading religious material, are more likely to be grateful. Grateful people are more likely to acknowledge a belief in the interconnectedness of all life and a commitment to and responsibility to others. Gratitude does not require religious faith, but faith enhances the ability to be grateful.

9. Materialism

Grateful individuals place less importance on material goods; they are less likely to judge their own and others success in terms of possessions accumulated; they are less envious of others; and are more likely to share their possessions with others relative to less grateful persons.

THE SELLER PROCESS

A. Prelisting Interview Questionnaire

B. Deliver Prelisting Packet

C. Property walkthrough goals: rapport, review, qualify seller, qualify house

D. During property walkthrough:

1. How many properties have you sold? (If this is their first, go to question 2.)
 - When did you sell your last one?
 - What were your experiences with that sale? How did it go for you?
 - What did you like the best? What did you like the least?
 - What would you like to do the same or different on this sale?
 - If you could wave a magic wand and have this sale go just the way you want it, what would that look like?
2. (Review) Why are you selling your home?
3. (Review) Where are you going?
4. (Review) How soon do you need to be there? (Fill out calendar.)
5. Do you have any other properties that you need to sell? Would you like me to help you with those properties?
6. (After you have asked about inclusions and exclusions) Do you want to price your house with this _____ or with _____ ? (Qualify the house.)

THE SELLER PROCESS

7. I prepared a package of information for you and had it delivered yesterday. Have you had a chance to review it? (If not, briefly review the package with them.)
8. Do you have any questions regarding the package?
9. Based on the information in the package, do you feel I am qualified to market your home?
 - o (If “Yes”) “Would you like for me to handle the sale for you?”
(If “Yes”) “What questions do you have?”
 - o (If “Yes, but....”) They will mention a concern such as price.
“So...you feel I’m qualified once we can agree on _____.”
(Write down their concern on a piece of paper in front of them.)
“Setting _____ aside for a moment, is there anything else?”
(If they have another concern, repeat it and write it down on the list.)
“So...you feel I’m qualified once we can agree on _____ and _____ . Is there anything else?”

Keep asking “Is there anything else.” until you have all their concerns out in the open. Repeat each one of their concerns back to them as they mention it and write them all down on a piece of paper they can see.

- o You know, one of three things will happen today:
 1. After I’ve answered your questions, you may decide to hire me.
 2. You may decide I’m not the right fit for you and you may choose not to hire me.
 3. If I feel I can’t help you achieve your objectives, I have a responsibility to tell you that and not take your listing. It would not be right for me to take your listing knowing down deep inside that I can’t help you.

Shall we proceed and see where we are?

THE SELLER PROCESS

10. My mission is to help you get to _____ on time.
Would you like to see your odds? Show them:
- “The Pond” (how markets and supply/demand work)
 - Their market odds by price range
 - Their market odds and absorption rate for their neighborhood (Note: Neighborhood can be defined as a map area or type of location (waterfront, golf course, acreage, etc.)
11. Are you willing to list your home at fair market value?
- (If they ask, “What is fair market value?” Fair market value is determined by what buyers are willing to pay given their choices and what sellers are willing to sell for given their choices and the competition.)
 - Would you like to see how buyers and sellers determine fair market value?
 - Let’s start by looking at the market through what we call “Buyer Eyes”. Buyers start selecting homes based on three criteria:
 1. Size/style
 2. Location
 3. Price
 - Later they also consider condition and features/amenities.
 - Show “Scattergram” – Would you agree your home will sell someplace on this line. Where do you feel we need to be on the line?
 - Show “Price Lines” – Where do you feel we need to be in line?

THE SELLER PROCESS

12. Based on current market conditions where do you feel we should price your house to get you to (new place) on time?
13. Do you feel that will get you there on time? If not, what's your Plan B?
 - o If they want to start at a higher price and come down, show charts on "Overpricing in a Depreciating Market" and "Why Your First Offer is Often Your Best Offer".
 - o When do you think your home is most exciting to buyers? When it is fresh on the market or after it has been on the market for several months?
 - o Do you believe we need to have your home positioned at its best at the start?
14. If we get to (date) and your house isn't sold, what will you do? What is your Plan B?
15. If we got a contract on your house for \$ _____ today, what would you do?
16. If we find a buyer for your house in the next 72 hours, are you going to be okay with that? What if it's the first person who looks at your house?

Simple Pricing Questions with Scattergram:

Ask the seller to find their square footage on the bottom of the Scattergram. Ask them to draw a line from their square footage vertically up and off the page.

Pricing questions:

1. "Would you agree that your home will sell somewhere on this line?"
2. "Based on what we have talked about, where do you feel that your home will sell on this line?"
3. "Where do you want to price your home on the line?" (If they price accurately, agree with them.)
4. If you feel that they are overpriced, ask "Do you think that price will get you there on time?"
5. "If your home doesn't sell by the time that you are ready to move, what is your plan B?"
6. "If we find a buyer for your house in the next 72 hours, are you going to be okay with that? What if it is the first person that looks at your house?"

LISTING PROCESS

1. **Complete Listing Interview – decide one call or two call.**
2. **Explain process to seller “Here’s what happens next. Will that work for you?”**
3. **Check seller packet to make sure it has current and relevant information:**
Proper city maps, statistics, etc. Up-to-date statistics, Source, etc.
Customize marketing plan based on interview?
Staging video? Pricing video?
4. **Arrange for seller packet to be dropped off.**
5. **Order Ownership & Encumbrances Record from Title Company.**
6. **Do Value Positioning Analysis (VPA):**
Similar properties that have sold.
Similar properties that are active.
Similar properties that have expired.
Check pricing histories and days on the market.
Determine absorption rate – given the current supply of homes that are similar to this one, and the rate of sales of homes that are similar to this one, how long (on average) will it take to sell this home?
Check months of inventory chart—what’s happening in this price range.
Prepare “The Pond” and absorption rate analysis.
Drive neighborhood:
 - o Take digital photo of subject property (put in brochure).
 - o Check out similar active and sold properties – notice condition, orientation (open space, busy streets, etc).
 - o Preview active properties and rate them using VPA form.
 - o Check out any For Sale by Owners (call and get info).
 - o Look for positive or negative changes in neighborhood.
 - o Become the neighborhood expert

LISTING PROCESS

7. Based on the VPA what is my pricing strategy?

What is the price range for this home (subject to seeing home).

Where would I like to see this home priced? (subject to seeing home).

Where will we need to be “in line” to get this home sold in the time frame requested by the seller? (subject to seeing home).

8. Pre-Game

What is the seller’s most important objective?

What does the seller think is their most important objective?

What do I know about the sellers F.O.R.D.?

What is the seller’s personality type?

Is the seller primarily Visual, Auditory, or Kinesthetic?

What are three things the seller is looking for in a REALTOR®?

What are the potential objections they may have to listing with me?

What potential pricing objections may they have?

What are the potential problems with the property?

What are my strategies to handling their potential objections?

Review my “Sweet 16” Listing Questions.

9. Listing Consultation – at seller’s home. Start with tour of home – condition?

MARKETING PLAN

Our goals are:

To help you get your home sold and get you where you want to go on time.

To help put you in the strongest negotiating position possible.

To make it easier for you and reduce surprises.

- 1. Pre-Inspection.** We will have the major systems in your house inspected to reduce your risk of any surprises when negotiating with a buyer and to make your transaction smoother. I will pay for these inspections as part of my service to you.
- 2. Pre-Title Commitment.** We will order (at our cost) a pre-title commitment to reduce your risk of any title problems at closing.
- 3. Staging.** We will assist you with preparing your home for sale.
- 4. Pricing.** We will assist you with pricing your home based on a competitive market analysis. This will help you to set the best price on your home so that it will sell within your time frame.
- 5. Marketing System.** We will enter your home into our marketing/information system.
- 6. Relocation Program.** Information on your property will be put in the LeadingRE relocation packages that go to major employers. This will increase your exposure to relocating buyers. Last year, one in four buyers was from out of town.
- 7. Yard Sign.** We will place one of _____ signs on your property.
- 8. Color Brochure.** We will have your home professionally photographed and a full color brochure prepared.
- 9. Brochure Box.** We will place a brochure box on our sign. We will provide you with extra brochures to refill the box.
- 10. Lock Box.** We will place a lock box on your property to increase showings and provide you with the security of knowing who has shown your home.
- 11. Multiple Listing Service (MLS).** We will enter your home's information into the MLS, giving your home exposure to _____ REALTORS® in _____.
- 12. Internet.** We will enter your home's information on REALTOR.com, the nation's largest real estate web site as well as four other web sites.

MARKETING PLAN

- 13. Enhanced Internet Technology.** We will enhance your property on REALTOR.com with additional photos and technology so that you will appear earlier on internet searches and receive up to 300% more visitors to your property than non-enhanced listings. We will also email you reports showing the number of internet visitors to your property.

In addition, we will set you up on our Search system so you will be automatically emailed any new listings that come on the market in your area. This is an automatic way for you to stay up to date on the competition.

- 14. Contact REALTORS® with Buyers.** We will mail a color postcard of your home to the REALTORS® who have buyers in your price range.
- 15. Mail to Neighbors.** We will mail a color postcard of your home to 50 neighbors closest to your home.
- 16. Personal contact.** I will personally contact the 20 neighbors closest to your home to get their ideas on prospects for your home. In addition, I personally contact at least 50 people a week throughout the community.
- 17. Counter Display.** We will prepare an informational notebook containing most things a buyer will want to know – survey, school information, utilities, homeowner’s association, pre-inspection information, contract, etc. This information will give buyer’s the confidence to write a contract.
- 18. Buyer/REALTOR® Survey.** As part of the counter display, we will have a survey card for REALTORS® and their buyers to fill out and give us feedback on their showing of your home. They will leave the cards in a bowl on the counter so you can review their comments. I will offer a drawing for a gift as an incentive for them to fill out the survey card.
- 19. Open House.** I will hold your house open (with your permission). Three days before the open house, I will place a sign in front of your home promoting the open house.
- 20. Transaction Management.** Our full-time transaction managers will manage the details of your transaction to ensure that your contract closes on time – and you can move on time. Over 90% of our contracts close on or before the date written in the contract compared to an industry average of less than 50 percent.
- 21. Weekly Contact.** I will contact you weekly to give you an update on the marketing of your home and answer any questions you may have.

REALTOR® 7.0 LISTING

1. **Show up on time (shows respect and integrity)**
2. **Dress up – it's a job interview!**
3. **Give a pre-listing packet in advance**
4. **Provide market information- statistics – odds of selling**
5. **Provide written comparative market analysis**
6. **Provide written marketing plan**
7. **Position the seller in the strongest negotiating position possible:**
 - Pre-Inspection
 - Improvement location certificate (ILC)
 - CLUE report (Comprehensive Loss Underwriting Exchange) or equivalent
 - Professional measurement and floor plan by appraiser
 - Septic inspection
 - Staging, carpet/paint program
 - Handyman service (make it easier)
8. **Color brochure**
9. **Additional marketing – Source, Just listed cards, etc.**
10. **Have the home “Parade Ready” before exposing to the market**

ABSORPTION RATE POSITIONING SAMPLE

Seller: _____

Address: _____

Property Description: _____

Profile Buyer for this property: _____

1. Define the “Playing Field” through “Buyer’s Eyes” (MLS search criteria):

Neighborhood, zip code, price range, size, floor plan, lakefront, schools, etc.

- *Note: In Step #1, pretend you are sitting with a buyer and about to select homes to look at. You are going to load the buyer’s search criteria into the MLS system. Where would this property show up in a search? What categories or criteria would a buyer use for this type of property? What would be the other properties (that are similar to this) a buyer would want to see? Buyers tend to search based on 3 general criteria: Style, Location, and Price Range.*

2. Sold properties in the past 12 months: 25 (Success patterns/refine search?)

- *Once you have loaded in your search criteria (Step #1); ask the computer “How many properties that fit these criteria have sold in the last 12 months?” In this example there are 25 properties that have sold. At this point you can decide if you want to narrow your search by limiting the criteria even more – for example, only 4 bedroom, 2-story homes, in Anderson Farm subdivision.*
- *Next, look for “success patterns”. Is there a pattern for those that are selling? For example: all or most are ranch style (1 level homes); main-floor master suites; on more than 1 acre; top floor condos; etc. The market will speak to us. We need to be listening! You may want to refine your search at this point. You want to “drill down” and really understand why buyers are buying these particular homes – what are the features that are selling them – or is it simply price?*

3. Sales rate (absorption rate) per month of similar properties: approximately two months

- *If 25 homes sold in 12 months, they are selling at the rate of approximately 2 per month ($25 \div 12 =$ approx. 2 per month).*

4. Number of properties currently for sale: 17 (+ your house) = 18

- *Here you ask the computer for how many homes that match these criteria are currently for sale. In this example, there are 17 properties that match the criteria. When we add your seller’s house into the mix, a buyer will have 18 choices. These other 17 homes are your competition.*

ABSORPTION RATE POSITIONING SAMPLE

5. At current sales rate, time required to sell all of current properties: 9 months

- *If there are 18 houses for sale that fit these criteria, and they are selling at the rate of 2 per month, it will take 9 months to sell all of the current inventory (18 homes ÷ 2/mo. = 9 months). At this point, you can ask your seller, “Will 9 months work for you?”*

6. Odds of Selling within 30 Days through “Buyer’s Eyes”:

2 (Monthly sales rate #3) ÷ 18 (properties for sale #4) = 11.1 % Odds of Selling this mo.

- *Earlier, we had stated the seller’s goals – to get to _____ on time. Using the calendar, we had calculated that to meet their timing goals, we need to have a contract on their house in the next 30 days. (If, it takes an additional 60 days for the buyer to obtain financing and close, then a contract in 30 days means a closing in 90 days.)*
- *Here we are showing them that the odds of their house going under contract in the next 30 days are 11.1%. At this point, the seller may start to panic because the odds are not very high – although they will be impressed that you can show them their odds with this level of precision.*
- *At this point in time, it is very important to make two points:*
- *Point #1: “You know, most buyers do not buy homes based strictly on price. They buy based on value – which is the relationship of their perception of quality and price. There are 5 key factors they consider in buying a home and I’ll show you what those are.”*
- *Point #2: “Our goal is to help you with a value positioning strategy that will increase your odds from 11.1% to potentially 100%. Would you like to see how it works?”*

7. Value positioning your property vs. the competition through “Buyer’s Eyes”:

Condition: _____ Rating: _____

Location: _____ Rating: _____

Size (lot and house): _____ Rating: _____

Features/Amenities: _____ Rating: _____

Price _____ Rating: _____

- *In Step 7, you will use your expertise with the MLS photos, descriptions, and google maps, to select the top six houses (out of the 18) that a buyer will want to see first. Again, project yourself into the role of working with a buyer to pick the best 6 of the 18 houses. Of the six houses, one of them is your seller’s house.*

ABSORPTION RATE POSITIONING SAMPLE

- *Next you will want to personally visit the other five competing properties. The reason you want to do this is because the buyers will do it and you want to position your seller's house for the market using "Buyer Eyes". You may want to consider taking the seller with you on this tour of the competition.*
- *As you tour the competition, rate your listing on a one to six scale – with one being first place and six being last place. For example, you might rate your listing as a "three" on condition but with some reconditioning and staging you could get it to "two" which means it would be in second place on condition. Generally a seller can improve condition and price but not location. Size (e.g. adding a room) and features/amenities (e.g. granite) can generally only be improved with a large investment of time/money. Sellers usually have to compensate for location, size, and features/amenities with price. Again, most buyers do not buy strictly on price. They buy based on value, which is their perception of the relationship of these 5 factors.*

8. Value positioning through "Buyer's Eyes":

100% Odds of Selling within 30 Days = Position your house in the Top 2

50% Odds of Selling within 30 Days = Position your house in the Top 4

33% Odds of Selling within 30 Days = Position your house in the Top 6

- *If the seller wants to be under contract within 30 days, they need to position their house as one of the top 2 that a buyer has to pick from. If they do this, two houses are going to sell this month and they should be one of them. If they are in the top 4 and two are selling this month, they have 50% odds of selling, etc.*
- *Remember, markets are very dynamic and it is recommended you track all showings, buyer/REALTOR® comments, and re-do your value positioning and absorption rate analysis every two weeks.*
- (Adjust for seasonality and market trends.)
- *The above analysis is based on 12 months of data. If you have a seasonal market, or market conditions are changing, you should do this same analysis using the last 3 months as a "snapshot" of current market conditions. You may discover that the market has slowed (perhaps you need to be in the Top 1 to be under contract in 30 days) or the market has sped up (and you need to be in the Top 3 to be under contract in 30 days).*
(Adjust for seasonality and market trends)

GETTING IT SOLD!

Marketing Checklist

1. Does the seller have a “gap” – a reason to sell, a place to go, and a time to get here?
2. Does this home create a good first impression? Staging? Carpet and paint program?
3. Has the seller detached emotionally from the house? How can we help them?
4. Has the seller de-personalized the house? How can we help them?
5. Has the seller de-cluttered the house? How can we help them?
6. How many homes of this style and price range are for sale in this area?
7. How many homes of this style and price range sold in the last quarter?
8. How does this home compete with new construction?
9. Has the seller adjusted the price for location, condition, and any obsolescence?
10. Where does this home need to be priced in order to sell in the time frame requested by the seller?
11. Is this property priced “at the front of the line” relative to competition? Will it be one of the top 2 or 3 properties picked by a buyer for this area, price range, and style?
12. How can we set this property apart from the crowd?
13. Do we have a decent photo – season, angle, exposure?
14. Do we have brochures and a counter display in the home? Brochure box?
15. Does the property brochure and counter display have complete information that answers the buyer’s questions? Is there enough information for them to write a contract without tracking down the listing REALTOR®?
16. Does our sign look new and fresh?
17. Do we have the home on tour? Do we have good directions? Is the house properly staged before we tour it?
18. Do we make it easy for buyers and REALTORS® to get information on this property?
19. Is the listing file complete and easily available?
20. Are showing instructions simple, clear, and complete?
21. Is this home easy to show?
22. Is this home on lock box?
23. Are we offering the best financing terms available?
24. Is the Seller available to review contracts? Have they been coached to let me know where they are if they leave town? Are they mentally prepared to accept a contract?
25. Can a buyer get possession quickly/easily?

GETTING IT SOLD!

Additional Marketing Checklist for New Home Neighborhoods

1. Who is the buyer for our homes? Where will they come from & why will they buy?
2. Who is our competition (including resale homes)? Do we visit competition monthly?
3. How are we unique in a way buyers perceive as valuable? Do we have a niche?
4. Is our sales staff trained to know our product, the competition, and how to communicate the differences?
5. Do we have a good “window”?
6. If yes, how do we maximize use of the window? Signs, model location, etc.
7. If no, what is our marketing plan to get people to visit us?
8. How do we phase construction to keep the window open as long as possible?
9. Does our entrance create a “sense of arrival?” Landscaping, signage. What does a buyer see when they drive in the neighborhood? When they drive out?
10. Does the buyer experience the three “wows?” –
 - o Entrance into the neighborhood
 - o Driving up to the house/model
 - o Stepping into the entry of house/model.
11. Have we walked through the neighborhood repeatedly using “Buyer Eyes?”
12. How do we get from “project” to “neighborhood” as soon as possible?
13. “Clustered” versus “scattered” construction.
14. Sodded front yards?
15. Site controls: construction traffic, material storage, weed control, porta-johns, periodic street cleaning, radio volume, construction hours, a clean construction site that minimizes wind and visual impact.
16. Have we taken good care of our customers – met their expectations on quality, inclusions, completion time, walk through procedure and call-backs?
17. Do we have happy customers who will speak positively about our neighborhood, help build a positive reputation for it, and refer potential buyers to us?
18. Have we prepared a marketing plan and budget using the “Eight P’s of Marketing”?

Eight Step Marketing Plan

PRICING QUESTIONS AND DIALOGUES

1. Are you willing to list your home at fair market value?

If yes. Would you like me to handle it for you?

If yes, but...So...backtrack...anything else?

As a buyer, how would you select the homes you want to look at? (Listen)

You know, we find most buyers select homes to look at based on three criteria:

- Style/size
- Location
- Price range

Let's pretend to be a buyer and look at the market for your home through the "buyer's eyes". (Show market analysis. List homes for sale in order of price, showing where their home is "in line". Take them on a tour of the competition.)

2. Based on the supply and demand for homes in your price range, where do you feel we need to price your house to get you to (new place) on time?

3. Do you think that price will get you there on time?

If we get to (date) and your house isn't sold, what will you do? What's your "Plan B"?

Can you handle the cost of maintaining two households?

Will you go to (new place) and leave your family here or will you take your family and leave your house here? (explain insurance)

If we had a contract for \$ _____ sitting in front of us right now, what would you do?

4. If they ask you, "What do you think the price should be?"

We always look to the market for answers. The market will speak to us. We need to listen. Based on the information we have just gone over, the current market appears to be telling us your home will probably sell somewhere in the range of

\$ _____ to \$ _____. Will that work for you?

PRICING QUESTIONS AND DIALOGUES

5. If they say, “We need \$ _____ because of _____.”

Let me ask you this, when you purchased your new home, did you decide to pay that price based on your knowledge of the market and what your choices were? Would you have paid above market price for that home if the seller had needed more?

6. If they say, “We can always come down.”

Here is a list of homes available for sale that are similar to yours in style, price range and location. You can see at a price of \$ _____ where we are in line. If you were a buyer and you wanted to pick three homes to look at, which three homes would you pick? At \$ _____, do you think we will make the cut?

Show them “Showing Activity Chart” and the importance of the first 30 days.

7. Drop back positions:

Automatic price reductions in the listing agreement.

Solve it “on the other end” – the house they are buying

List it in the future.

- o “Joe from XYZ Realty says he can get us our price.”

Do you believe him? Has he shown you the same information we have gone over?

If (date) arrives and Joe hasn’t sold your home what will you do?

If it wasn’t for the price, would you prefer to list with Joe or with me?

Then let’s do this, why don’t you list with Joe until (date). Maybe he will get it sold for you. Just in case he doesn’t, let’s list your home starting (date +1). That way we will be ready to go if it doesn’t sell.

COMMISSION QUESTIONS AND DIALOGUES

1. Pre-Game Ritual

Know your seller (their motivations, likes, dislikes, tactics, hot buttons).

Know what you want to accomplish.

Know your strategy (your approach, skills to use, tactics, mentally rehearse).

Know your “drop-back” positions.

Know your “enough” (when you will walk away).

2. Do they know the price of your service up-front? (It helps if they do - Prelist Book)

3. Shift their focus from “Cost” to “Results”

Use “Calendar Process”, pre-listing packet, and “Sweet 16” listing questions.

Are they motivated to move? Do they have a gap?

Your mission is to get them there on time.

Show them their odds.

Show them their odds with you (demonstrate added value).

Show them what you do to sell their home, i.e. your marketing plan.

4. Possible Commission Dialogues (S = Seller ; R= REALTOR®)

S. What is your fee?

R. _____%, and let me show you how it works. We pay _____% to the broker who sells your house. We use _____% to market your house. I'll show you a list of things we do to market your property with the _____%.

There are really two fees. Our fee to do all the marketing I've shown you is _____%. Now, what we need to decide together is how much of a fee we want to offer to brokers to encourage them to sell your property. Most of them will sell your home for _____%. Will that be OK with you?

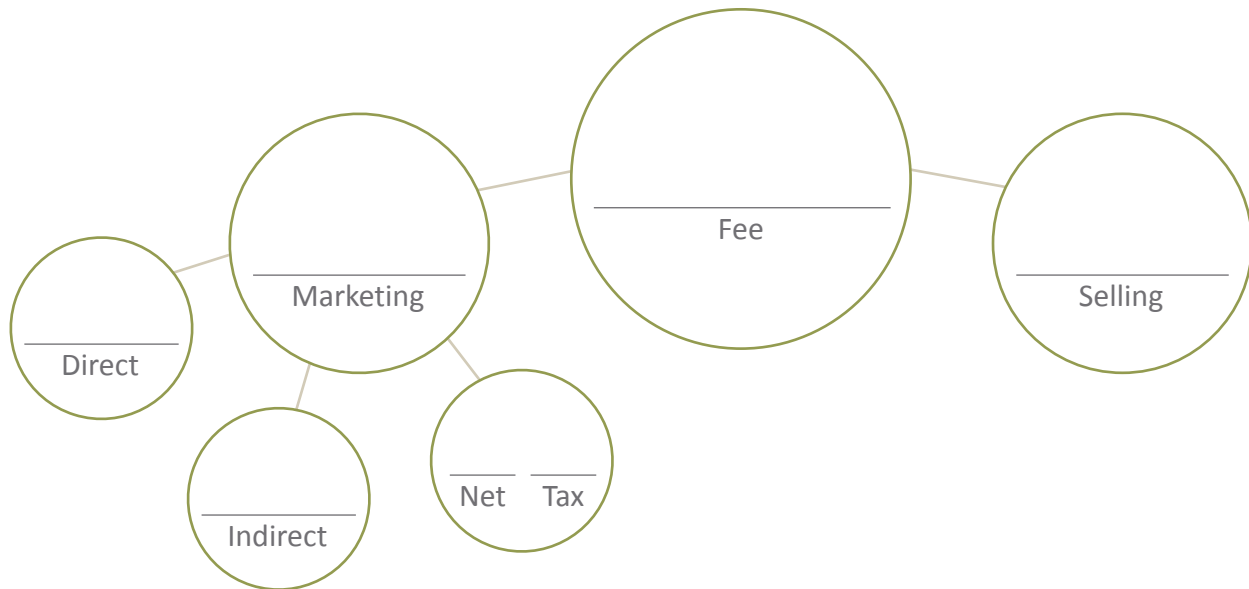

That's really up to you. You have two choices. We can do everything I've shown you for a fee of _____% - some of my customers choose to go this route. Or, we can offer some additional marketing and incentives for a fee of _____%. Many of my sellers prefer to go this route because it improves their odds of selling. Which program would you prefer?

COMMISSION QUESTIONS AND DIALOGUES

TSW! (This Stuff Works!)

Follow the 16-Step Seller Process and you will seldom have commission objections. When you do, here are seven Ninja favorites to handle them.

- o The Original Ninja, Jimmy D.'s humor: "Six versus Five".
 1. Magic Words – "Fair and Honest"
 2. Where the money is invested on your behalf.

3. "Do you believe there is a predetermined price for your home or do you believe there is a price range based on market dynamics?" (Focus on the importance of marketing and negotiation.)
4. Integrity – "Who do you believe will be the best at protecting your price?" How quick was he/she to cut their fee? How quick will they be to cut your price?
5. Baseball Analogy – Getting under contract in this market is just 1st base. Are you looking for a REALTOR® and company that can get you to home plate or just to first base?
6. Commission Guarantee.
7. Persistence – 80/20.

COMMISSION QUESTIONS AND DIALOGUES

5. Commission Objection Role Play

Note: The following dialogue is a transcript of a Ninja Selling class Larry Kendall taught at the Denver Board of REALTORS®. Larry did a role play with the class where the class played the role of the seller (S) and Larry played the role of the REALTOR®.

S. Will you do it for less?

R. No, that's what it will take to get you where you want to go on time.

How important is it for you to get into your new home on time?

You've seen the odds? Do you really want us to give it "first rate" effort or a "second rate" effort?

S. I want a first rate effort. I just don't want to pay any more commission than I have to. Will you do it for less?

R. How much less?

S. 1% less.

R. Let's see (figuring) that's about \$2,000 on our \$200,000 asking price.

Assuming we can get you close to that amount, you'll walk away with \$61,000.

Are you saying that's not enough?

S. Well, \$63,000 is better.

R. Are you willing to risk the \$61,000 to try and make an extra \$2,000?

S. What do you mean by risk?

R. You've seen the odds we face, right?

S. Right.

R. You need to be in San Diego in less than 90 days?

S. Yes.

R. You've said you want a first rate effort, right?

S. Yes.

R. Well what would you like to cut out of the marketing?

We could pay the selling brokers less to sell your house than the other houses in the market. Do you think that would be in your best interest?

COMMISSION QUESTIONS AND DIALOGUES

- S. Probably not.
- R. We could cut back on some of the advertising. Which things would you like to cut out?
- S. I really don't want to cut anything out. I guess what I'm really saying is, will you work for less?
- R. I really can't work for less. Number one, it wouldn't be fair and honest to my other sellers who are paying me to get the job done for them - and they are facing the same odds you are. More importantly, it wouldn't be fair to you. I can see you and your family are really excited about this move. It's the dream of a lifetime, and I want to give it our best shot to get you there - not cut corners.
- S. Well, Joe said he would do it for a total of 5%. If you'll do it for that, I'll list with you.
- R. How do you feel about Joe's odds of getting you there on time? Did he show you his odds?
- S. No, but he did show me how much money I would save by listing with him rather than you.
- R. Do you feel your odds are as good with Joe as they are with our firm?
- S. I don't know. The odds are probably better with you.
- R. Did Joe show you any references you could check out?
- S. No.
- R. Are you willing to take the risk with Joe?
- S. Maybe.
- R. What is Joe cutting out of the marketing?
- S. What do you mean?
- R. Is he going to advertise?
- S. I believe so.
- R. Is he going to do brochures?
- S. I don't know.
- R. Is he going to offer a cooperating commission to other selling brokers?
- S. I believe he is, but I'm not sure.

COMMISSION QUESTIONS AND DIALOGUES

R. Is he going to put your home in the MLS?

S. I think so.

R. What's your "Plan B?"

S. What do you mean?

R. If we are sitting here two months from now and Joe hasn't sold your house, what are you going to do?

S. Well, I'll probably be calling you to come over and bail me out. But I don't think that will happen. Will you do it for 5%?

R. Who would you rather work with, Joe or me?

S. I would rather work with you but Joe is cheaper.

R. So it's strictly a matter of money?

S. Yes

R. Who do you think will do a better job for you?

S. You will

R. Who do you think will be a tougher negotiator on your behalf to get you the highest price - me or Joe?

S. You probably will be.

R. How quick was Joe to cut his commission?

S. Pretty quick.

R. How quick do you think he will be to cut your price to a buyer?

S. I don't know. It concerns me.

R. Who do you think will net you the most "walking away" money?

S. You probably will.

R. Even with my higher commission?

COMMISSION QUESTIONS AND DIALOGUES

S. Yeah.

R. You will still net more?

S. Yeah. Probably will.

R. So, can I be your REALTOR®?

S. Yeah, but I just worry I may be paying more than I have to. How do I know you'll get the job done.

R. Number one, I don't get paid until I do get the job done. Number two, I'll guarantee my service to you. When we are done selling your property, if, for any reason you don't feel I've earned my entire fee, you let me know and I'll refund you the difference between what you paid me and you would have paid Joe. I'll write the guarantee right here in the listing agreement. Will that work for you?

S. Yeah, that sounds good. I feel good about working with you.

SMOOTH MOVES

Creating Customer Satisfaction and Increasing Income per Hour

1. Customer Survey – Top Three Characteristics Customers Seek in a REALTOR®

1. Knowledge
2. Trust
3. Strong Negotiator (“Pleasing personality” is important but no longer in top three)

2. Number One Customer Satisfaction Criteria: “Was it a smooth transaction?”

Did it close on time?

Did it close the way the contract was initially written

Was there a lot of hassle between contract and closing?

Were there a lot of surprises?

3. Three Reasons to do Inspections at Time of Listing:

1. Leads to smoother transaction – fewer surprises, happier customers
2. Puts seller in stronger negotiating position
3. Differentiates and Adds Value
 - o Differentiates you as lister, adds perceived value to seller
 - o Differentiates the listing, adds perceived value to buyers

4. Reasons Most REALTORS® Don’t do Inspections at the Time of Listing:

Habit/tradition

Lack of training/fear of change – lacks a system

Haven’t figured out how it adds value – tries to substitute for buyers inspection

Cheap – tries to get seller to pay

Likes the drama of surprises before closing

SMOOTH MOVES

5. Cost/Perceived Value/Differentiation

Roof – about \$50

Furnace – about \$60 - \$70

Home Inspection - \$100 - \$200

Radon – use mitigation allowance in seller’s net sheet

Cost to salesperson - \$210 - \$320; Perceived Value to Seller - \$1,000’s

Salesperson has:

- Higher perceived value (justifies fee)
- Is different
- Has smoother transaction (higher customer satisfaction)

6. Cover Letter on Inspections:

The attached inspections were completed on behalf of seller to determine the condition of this property at the time of listing for sale. Buyers are welcome to take copies of these inspections, however, no representations or warranties are being made by seller or (name of real estate listing company). Buyers are advised to use experts of their own choosing in evaluating this property.

SMOOTH MOVES

7. Sample Dialogues:

“We have three goals:

1. To get you where you want to go on time;
2. To make your transaction as smooth as possible
3. To put you in the strongest negotiating position possible.

90% of all buyers are going to have your house inspected before they will close. So we don't get surprised after we have signed a contract, do you know the condition of your _____? Have you had it inspected recently?”

- If yes: “Are you comfortable pricing your home based on that inspection?”
- If no: “Okay here's what I would suggest we do next. I'm going to have the major systems in your house inspected by licensed contractors. I will pay for these inspections as part of my service to you. This will accomplish three things:

It will reduce our risk of any surprises when negotiating with a buyer.

It will save you money because we can probably adjust the sales price by the amount of any repairs. Plus, the buyer is probably going to have more confidence in writing a contract on a house that has been inspected.

It puts you in a stronger negotiating position.

Does this sound like a good plan to you?”

- If yes: proceed
- If no: “May I ask why not?” (They give reasons.)

So (playback reasons) is there anything else? (Get all reasons on the table.)

“Let me ask you this, are you comfortable pricing your home and selling it, not knowing what a buyer might come back with prior to closing?”

KEY LEARNING POINTS - LESSON #7: THE SELLER PROCESS

Please put a check beside all learning points you understand thoroughly.

- Single most important factor in getting a home sold: Seller's decision making ability.
- Ninjas don't list homes. They list sellers.
- Ninjas have listing consultations, not listing presentations.
- Seller's three greatest fears.
- Listing structure; Clarify the problem before I present a solution.
- Pre-listing interview form.
- Use of the calendar to help sellers create a timeline and schedule.
- Importance of the pre-listing packet.
- Based on the information in the packet, do you feel I'm qualified to market your home?
- So you feel I'm qualified if we can agree on _____. Is there anything else?
- You know, one of three things will happen today.
- My mission is to get you to (new place) on time. Would you like to see your odds?
- Based upon current market conditions, where do you feel we should price your home to get you to (new place) on time?
- Scattergrams, Odds of Selling, and Price Lines.
- "Fair and Honest".
- Simple pricing questions with Scattergram. (See page 118)

“

*fear is the
absence of love.*

”

OUR DEEPEST FEAR

“

*Our deepest fear is not that we are inadequate.
Our deepest fear is that we are powerful beyond measure.*

It is our LIGHT, not our darkness, that frightens us.

We ask ourselves, who am I to be...

Brilliant, gorgeous, talented, fabulous?

Actually who are you not to be?

You are a child of God!

Your playing small doesn't serve the world.

*There's nothing enlightening about shrinking so that
other people won't feel insecure around you.*

We were born to manifest the glory of God that is within us.

It's not just in some of us; it's in everyone.

*And as we let our own light shine, we unconsciously give other
people permission to do the same.*

As we are liberated from our own fear,

Our presence automatically liberates others.

[MARIANNE WILLIAMSON, A RETURN TO LOVE]

THE BUYER PROCESS

Working with buyers:

Four Stages of the Buying Process:

1. _____
2. _____
3. _____
4. _____

Creating Buyers

- o “You never need to _____ but you always need to _____.”

“Green Light Selling”

A buyer’s four greatest fears:

1. _____
2. _____
3. _____
4. _____

Buyer Process Goals:

- o _____
- o _____
- o _____

Rule of Confusion: _____

Rule of Clarity: _____

10-STEP BUYER PROCESS

1. Greet

Prepare and coach receptionist: “You must be customer’s name. We’re really glad you are here. Agent’s name is looking forward to meeting with you.”

First two minutes – Three steps - Connect and Control

- o Connect:

Step 1: “How are you today?”

Step 2: “Thank you” or “welcome” or “compliment”

Step 3: Introduce yourself

Ask rapport building (F.O.R.D.) questions

“How much time do we have together today?”

- o Control:

Once you feel you are connected (nod and see if they nod back) take control of the process.

“If it is alright with you, what I’d recommend we do first is sit down and get acquainted. I would like to ask you a few questions that will help me help you find the right home.

Will that work for you?”

2. Meet – different location (fresh energy) – offer a gift (drink? pen?)

3. Buyer Interview: (Have a file made up with their name on it.)

Open their file.

“I would like to ask you a few questions that will help me help you find the right home. Is that okay with you? Is it okay if I take some notes?” (Power of the Pad)

Follow the proper question sequence:

- o Rapport questions
- o Foundational (prior learning) questions
- o Diagnostic questions – who, what, when, where, why, how?
- o Solution (closing) questions

10-STEP BUYER PROCESS

Five key foundational buyer questions:

1. “Where are you living now?”
“Do you own your current home?”
“How long have you owned it?”
“Tell me a little bit about it.”
2. “About how many homes have you owned in your lifetime?”
3. “When you purchased your current home, what was the process you used to find that home?”
“How did you start looking?”
“What did you do next?”
“How long did it take to find the home?”
4. “How did that process work for you?”
“Is there anything you would like to change on this purchase?”
“If you could wave a magic wand and have this purchase go just the way you want it, what would that look like?”
5. “Are you familiar with how real estate works here in (place)?”
If they are from the local area ask, “Are you familiar with the current market conditions?”

4. Buyer packet and agency disclosure

“I prepared a packet of information for you that has everything you need to buy real estate in (place).” Briefly review packet, point out contracts, and finish with agency disclosure. (Confirm that they are not working with another REALTOR®.)

5. Funnel process

“Our goal is to help you find the right home and, at the same time, make sure you don’t miss anything or pay too much. We have a process called “The Funnel Process” that will help us accomplish those goals. Would you like to see how it works for you? Great.”

“Let’s start with what you have so far. “Do you have a list of homes you have found that you are interested in?”

Review what they have. “Have you gone inside any of these homes?”

10-STEP BUYER PROCESS

“If it’s alright with you, let’s start by putting these homes into what we call the ‘funnel’.
(draw a funnel).

To make sure you don’t miss anything, let’s also put into the funnel any home you might consider. Will that be okay? Discuss:

- MLS
- New Listings
- New Construction
- For Sale by Owner

“Once we have everything in the funnel, we’ll start a simple process of elimination to remove those properties that don’t work for you. We’ll use the comfortable process of elimination versus the often frustrating process of selection. This way we’ll make sure you don’t miss anything.”

“We’ll go from 1,000’s of properties in the funnel to 100’s and then to dozens as we begin to eliminate those that don’t work.” “Some we will look at on-line, some we will drive by, and some we will decide to make an appointment and go in. You will be in control of the decisions.”

“As we go through the process, our goal will be to find our top three favorites that could work for you (and this can be a rolling top three).”

“Once you have identified your favorites, I’ll do a simple market analysis showing you sold properties to help you get a feel for value. Our goal is to make sure you don’t pay too much.”

“Does this look like a process that will work for you?”

10-STEP BUYER PROCESS

Funnel Process Summary and Key Phrases:

- Process of elimination versus process of selection
- Make sure you don't miss anything.
- Some we will look at on line, some we will drive by, some we will go in. You will be in control of the decisions.
- Our goal: Identify your "Top Three Favorites" and I'll do a market analysis on them.
- We want to make sure you don't pay too much.
- Draw it! Showing is better than telling.

6. Scale of 1 to 10.

"Just for fun, to give me an idea of where you are in the process, on a scale of 1 to 10 (with a 1 being you are just starting the process and a 10 being you would like to find a home today) where would you rate yourself?"

"What would have to happen for you to be a 10?"

Drill down on each item – ask questions and listen

- "What specifically about...?"
 - "Why is that important to you?"
 - "Tell me more about that."
- Take notes. (Power of the Pad!)

7. Pieces of paper exercise. (Give each person a piece of paper.)

"If it is alright with you, I would like each of you to make a list of the things you want in a home. After you have made your list, put stars beside the three things you can't live without."

10-STEP BUYER PROCESS

8. What and why? Features and benefits.

(What) Features	(Why) Benefits

Remember: People buy their “whys” (benefits) not their “whats” (features). Explain the concept of “the 85% perfect home.”

9. Cash? Loan? House to sell?

“Will you be paying cash for this home or will you be getting a loan?” If getting a loan: “Do you have a loan arranged? Do you have a lender?”

“While I’m doing the computer work for your MLS search, would you like to meet with (name of lender) for a second opinion?”

“There is absolutely no obligation to use (name of lender). However, it will give you a second opinion.”

Do the preliminary MLS search while they meet with the lender.

They return from the lender:

- o “How did it go?” Discuss their loan options
- o “Are you familiar with the 1% = 10% Rule?”
- o “Every 1% change in interest rate affects your buying power 10%.” (1% = 10% Rule)

4.5%, 30-year, \$1,013/month = \$200,000 mortgage

5.5%, 30-year, \$1,013/month = \$178,476 mortgage

6.5%, 30-year, \$1,013/month = \$160,326 mortgage

“What is your interest rate risk right now?”

Soft Solutions

Your odds:

- First time = _____
- Second time _____
- Total of two times = _____ %

COMMON TRAPS

Key elements of the 10-Step Buyer Process (the subtle and hidden)

1. Order and sequence of questions:
 - Rapport-Connection Questions
 - Foundational Questions (access prior learning)
 - Diagnostic Questions (who, what, when, where, why, how)
 - Solution (closing) Questions

Most common trap: REALTORS® skip Foundational Questions – can’t wait to get to beds and baths. “Just read the foundational questions!”
2. Prepare a Buyer Packet
 - Shows you are a pro & builds trust
 - Sets up “Equity Sensitive” relationship
 - Let’s them see the contract in advance and get used to it
 - Provides a nice segue to talk about agency & confirm they are not working with another REALTOR®

Most common trap: Most REALTORS® don’t use a Buyer Packet
3. The Funnel Process
 - Shows you have a process and are a pro versus just a “cab driver”
 - Handles their fears of “missing something” and “paying too much”
 - Gets them committed to a process and gets everyone on the same page. Gives them the “Greenlight” to move forward when they see something they like

Most common trap: Most REALTORS® don’t use Funnel Process
4. Scale of 1 to 10
 - Helps you find out where they are in the process
 - Helps you (and them) get clear on the steps necessary to complete a transaction. (Everybody gets their “marching orders”.)
 - Helps them get clear on diagnostic questions: who, what, when, where, why, and how

Most common trap: Most REALTORS® never ask these questions

COMMON TRAPS

5. Two Pieces of Paper
 - Critical when you have two buyers
 - You get input from BOTH buyers
 - Having them mark their three “have to haves” helps them prioritize

Most common trap: Most REALTORS® skip this step
6. Whats and Whys
 - People buy their “whys” not their “whats”
 - Load the “whys” into your MLS search

Most common trap: Most REALTORS® do their MLS search based on “Whats” (they can’t wait to ask about beds and baths) and show properties based on “Whats” not “Whys”

 - During this step, have the conversation about the 85% home (finding the perfect home is difficult)
7. Cash? Loan? House to sell?
 - Have them checked out by a lender you trust (second opinion for them)
 - If there is a mismatch between what they want and what they want to spend, decide how this will be brought up – You? Lender? MLS?

Most common traps: Relying on their word about lender; they have a lender who can’t deliver; having this discussion too early in the process before the foundational questions.
8. MLS Search
 - Make sure you show matches, under contract, and available

Most common trap: REALTOR® just shows them what is available and misses the opportunity to show that properties are selling.
9. Showing Property
 - Have discussion about actives and solds you will see in the neighborhood and you have the information available with you on those properties

Most common trap: REALTOR® not having this discussion with the buyer and not having active and sold information readily available. When buyer sees a house they like (but are not being shown) they immediately decide to delay any decision to buy until they can go home and check it out on-line.

COMMON TRAPS

Handling Buyer Objections:

By following the 10-Step Buyer Process, buyer objections are greatly reduced because:

- Buyers are more clear (less confused)
- Buyers are more confident (less fear)
- Buyers are more focused (fewer criteria and variables)
- Buyers are in a “Balanced Brain” Decision making mode
- They have the “Greenlight” to move forward

When buyers want to “think about it” they are either afraid or confused or both. The 10-Step Buyer Process helps them become clear and confident so they are prepared to commit.

For best results, do the entire 10-Step Buyer Process (When you make a phone call, if you leave out a digit or put them in a different order, do you get the results you want?) The same is true with the 10-Step Buyer Process. Don’t skip steps. Don’t put steps in a different order.

Most common trap: REALTOR® skipping steps or putting them in a different order.

Sometimes objections/concerns will still come up. So the Ninja needs to have the skills to handle these objections/concerns.

SOFT CLOSES WITH BUYERS

A “soft close” – an easy, low risk question that requires a small, low drama decision.

A “hard close” – a tough, high risk question that creates drama and requires a big decision.

1. Favorite Showing Questions (after the gate of the mind is open):

Can you see yourself living in this home?

Is this a home you'd like to own?

When would you like to move in?

Shall we see if we can buy this home? (power and party personality)

Shall we make sure we don't lose this home (peace and perfection personality)

If they express an objection: So... is there anything else?

Is there any portion of the home you'd like to see again before we leave?

If they want to think about it... Offer “Auction Solution” (peace and perfection personality)

If they want to think about it... Offer “Scratch Pad Solution” so they have something to take home.

2. Favorite After Showing Questions:

Which home do you like better? (Comparison of two homes)

Is this home in our top three? Would you rate this as an 85% home or better? For new construction: What is your favorite plan? Lot?

If I call you later tonight and tell you one of these houses has sold, which one would you be most disappointed to lose?

If this home sells tonight, will you be okay with that? What is your Plan B?

“Scratch Pad” solution (“practice contract”) or set another appointment.

SAMPLE BUYER INTERVIEW QUESTIONS

1. Opening

My goal is to help you find just the right home and to make your move as smooth as possible. To help me do that, may I ask you some questions? Is it okay if I take some notes?

2. Personal Information

Could you tell me a bit about yourselves?

Family?

Work?

What do you do for fun?

If you could live anywhere, where would that be?

3. Experience

Do you currently own a home or are you renting?

How long have you lived there?

How many homes have you owned?

How long have you been looking?

How many homes have you seen?

Have you seen any homes you liked?

- Yes: Why didn't you buy the one you liked?
- No: What are you looking for that you haven't found?

Have you recently bought any real estate in Colorado?

- I've prepared a packet of information for you to take with you. It will help you understand the buying process. It will also help you if you can take the time to review these documents before we find your home. Will you be able to do that? (Briefly show what is in packet.)

SAMPLE BUYER INTERVIEW QUESTIONS

Will you be financing part of the purchase or will you be paying cash? If they are financing:
Have you met with a lender and been pre-approved for a loan?

- Yes: Do you have your paperwork with you?
- No: We'll need to get started on that right away. Would you like me to help you with that?

4. Urgency

How soon would you like to be moved?

Why is that an important time frame for you?

How would your plans be affected if you moved earlier or later?

What would happen if you didn't find a home by then?

If we found the right home today, what would you do?

Is there anything you need to resolve before you purchase a home?

Will anyone else be involved in the decision to purchase?

Will anyone be offering financial assistance?

IF THEY ALREADY OWN A HOME:

- Are you able to buy another home without selling your present home?
- Would you like to buy first or sell first?
- What would be a more comfortable extreme: owning two homes or owning none?

SAMPLE BUYER INTERVIEW QUESTIONS

5. Needs and Priorities

Of all the things you're trying to accomplish in this move, what is the most important?

In your current home, what are the things about it that you like the best? Why?

What is your favorite room in a home? Why?

How large of a home did you have in mind? Why?

What style of home did you have in mind? Why?

Help me visualize how you'd like your next home to look.

What are the most important features to you? Why?

What are the three things you can't live without? Why

FAMILY: Considering everyone who will live in the home, what requirements do they have?

- o What hobbies and leisure activities do we need to consider? Pets? Schools?

Do you have any special furniture you would like to accommodate?

How do you feel about doing decorating or repairs on a home?

How do you feel about buying a brand new home/Townhome?

6. Financial Qualifications

What price range did you have in mind?

How did you decide on that amount?

How much over that amount would you be willing to go if the home was really appealing to you? (needed for search criteria)

SAMPLE BUYER INTERVIEW QUESTIONS

7. Their Process (if they've bought before)

The last time you bought a house, could you tell me about the process you went through to find that house?

- How did you start looking?
- What did you do first? What were the steps you went through?
- Did anyone help you make the decisions?
- From the time you started, how long did the whole process take until you found the house?
- Did that process work pretty well for you? Is there something that you would do differently if you had it to do over?
- Are you comfortable more or less using that same process to purchase this home?

8. Your Process: Explain

Multiple Listing

Procuring Cause – Go over disclosures

Homes vs. Townhomes

For Sale by Owners

Loyalty

Explain how you are going to select and show them homes (funnel process)

My goal is not to sell you something. My goal is to help you buy a home that is right for you

- One of the ways I can tell if you like the home is to ask you if you would like to buy it. Will that be okay with you? – Or if the home sells tonight, will you be ok with that? If the first home we look at is the right home, will you be okay with that?

FAVORITE BUYER QUESTIONS

1. Five Favorite Floor Call Questions

1. “What was it about that home/ad that attracted your attention?”
2. “Do you have any other properties written down that you’d like details on?”
3. “Would it help you if I got you the details on those properties?”
4. “I’ll get the information together on these properties for you. When would you like to get together to go over them?”
5. “Do you have a buyer packet?”

2. Five Questions for Potential Investors

1. Do you own your own home?
2. How long have you owned it?
3. Has it been a good investment for you?
4. What would your financial situation be like if you owned 10 of them?
5. What would your life be like if they were all free and clear?

FAVORITE OPEN HOUSE QUESTIONS TO OBTAIN LISTINGS

1. The objectives of this open house are:

- To meet prospective buyers who are also sellers
- To market the home to buyers and meet buyers
- To sell the home and satisfy the seller
- To generate listing appointments. If the open house is from noon to 4:00 p.m., the goal is to have listing appointments after the open house.

2. After the guests to the open house have entered the home and you have greeted them, allow them to “get their bearings” and circulate through the home for a bit. When you sense they are comfortable, approach them and ask these questions:

- Are you folks from around here?
If “No”: Where are you from?
What brings you to the area?
How soon do you plan to move?

If “Yes”: Where do you live now?
How long have you lived there? How do you like it?
Why do you want to move?
What homes have you seen that you particularly like?
If you could live anywhere, where would that be?
Do you own your own home or are you renting?
- Will you be needing to sell your home to purchase a new home?
- Do you have an idea what your current home will bring in today’s market?
Would it be valuable to you to have a current market evaluation showing what your home will sell for in today’s market, what your closing costs will be, and how many net dollars you will have from your sale to buy a new home?

I get off my open house at 4:00. Why don’t I swing by your house on my way home and help you with a price opinion? That way you’ll know how many net dollars you are working with to buy a new home. It will only take a few minutes and there is no obligation.

OPEN HOUSE LISTING APPOINTMENT

1. **Would you give me a quick tour of your home?**
2. **Rapport – F.O.R.D. Questions**
3. **Information gathering questions:**

When did you buy this home?

What sold you on it?

Have you done anything to it since you bought it?

Do you know the approximate square footage?

Do you know your approximate loan amount?
4. **If you were to sell your home is there anything you would want to exclude? – work bench, dining room chandelier, etc.?**
5. **Is there any special item you would like to include in the sale? – hot tub, play ground equipment, etc.**
6. **Would you like to price your home with _____ or _____ .**
7. **How many properties have you sold?**

When did you sell your last one?

What were your experiences with that sale? How did it go?
8. **What other properties do you have that you might need to sell?**
9. **Based on the information you've given me I'll prepare a current market evaluation showing what your home will probably sell for and your net dollars from the sale. When can we get together to go over it?**
10. **Here's a package of information that I would like to leave with you. It will give you an overview of the current market. Will you be able to take a look at it before we get together again?**

CONTACTING NEIGHBORS TO A LISTING

Hi. How are you today? Thanks for coming to the door.

My name is _____ with _____ real estate company.

We have your neighbors, Mr. and Mrs. _____ home, listed for sale (motion in the direction of their home and provide them with a brochure).

As part of our service to our sellers, I wanted to drop by and give you some information on their home (could also invite them to an open house). I also wanted you to be able to associate a face with the name on the sign. Do you have any questions about their home or the current real estate market?

- o If they have questions: Answer their questions or set an appointment to do so.
- o If they don't have questions: "Thank you very much for your time. Have a great day."

NEW HOME SALES TWO MINUTE QUALIFIER

“Welcome. How are you today? Thank you for coming out to see us.

My name is _____ .

Is this your first visit to _____ ?”

If no, we’ve been here before: “Great! Welcome back. How can I help you today?”

○ If yes:

“Great! Let’s start by getting you located on this map.” (Lead them to map table.)

Start pointing out landmarks on the map:

“ Are you familiar with the area?”

“ Are you from around here?”

○ If no:

“Really?” “What brings you to the area?” (Find out if their move is job related.)

“What is your timetable for moving?”

“Have you had a chance to look at very many new home neighborhoods?”

“What have you seen that you like?”

“What did you like best about...?”

“Have you decided that you want a new home versus an existing home?”

If yes:

“Really?” Where do you live now?

“Do you own your home or are you renting?”

If they own:

“That’s a nice area. How long have you lived there?”

“Why are you thinking of moving?”

“Have you had a chance to look at very many new home neighborhoods?”

“What have you seen that you like?”

“What did you like best about?”

“Have you decided that you want a new home versus an existing home?”

NEW HOME SALES TWO MINUTE QUALIFIER

“Do you plan to sell your current home in order to buy your new home?”

If they rent:

“How long have you lived there?”

“What is your timetable for moving?”

“When is your lease up?”

“Have you had a chance to look at very many new home neighborhoods?”

“What have you seen that you like? “What did you like best about...”

“Have you decided that you want a new home versus an existing home?”

“How did you hear about _____?” Do your presentation.

Spend most time with most qualified – create reason for another appointment.

KEY LEARNING POINTS - LESSON #8: THE BUYER PROCESS

Please put a check beside all learning points you understand thoroughly.

- The four stages of the Buying Process: curiosity, interest, desire, and commitment.
- How do I create buyers? Get them into the first stage – curiosity.
- Greenlight Selling: Remove a buyer's greatest fears BEFORE they start looking.
- Buyers four greatest fears.
- The 10-Step Buyer Process is designed to help buyers make “balanced brain” decisions.
- Start your questions with “foundational questions” that access prior learning.
- The Funnel Process.
- Rolling Top Three.
- On a scale of 1 to 10. What would have to happen for you to be a 10?
- Two sheets of paper and the three things you can't live without.
- What's and Why's.
- The 85% Perfect House.
- The “Cream Puff Discussion”
- Can you see yourself living here? Is this a home you would like to own?
- The “Scratch Pad Solution” or “Practice Contract”.
- Finish with either a contract or an appointment to see the home again.

THE NINJA PATH

1. The power of incremental change: *The Slight Edge* by Jeff Olson

Ninja is a user-friendly selling system.
Everything is easy to do. It is also easy not to do.

Ninja is also a path, not an event. Ninja is a lifestyle, a way of being in the world.

“ Your life becomes a printout resulting from the *small decisions* you make each day that are compounded over time. ”

[JEFF OLSON]

THE NINJA PATH

“ We can show you the path,
but *you must walk it.* ”
[LARRY KENDALL]

2. The 10 Commitments:

Daily gratitudes and affirmations

Read “Mastery” or Ninja Books daily

Schedule and perform your Ninja 9 each week

Interview (FORD) 50 people per week and look for ways to create value

Turn in your weekly flow sheets

Participate in a weekly “scripts group” (develop your skillset)

Review your Ninja notes weekly

Listen to Ninja CD’s and webinars

Show up – for work, for sales meetings, for scripts groups, etc.

Maintain a positive energy state

3. Focus on productive activities and income takes care of itself.

4. When you experience fear, throw the switch:

Focus on them. Focus on love (creating value) and the fear goes away.

NINJA SKILLS GROUP SCHEDULE

Skills come with practice. To help fully develop your skills, we recommend you participate in a weekly skills group. We recommend these groups consist of five to eight people, meet weekly, have an agenda (topic), and engage in deliberate practice. This is not a discussion group. It is a practice group.

Here is an example of a 16 week schedule that is used by many of the Ninja Practice Groups. All of the scripts are in the Ninja Installation manual - and most all of the Ninja classes.

If you are wondering what the “Pit” is, this is a role playing exercise where one person is “it” in the PIT. Participants pick a topic - say pricing, or commission objections - and they fire objections at the person who is it and they see if they can handle it. If they struggle, the group jumps in with ideas to help them. One of the rules: whenever possible, answer the objection with a question not a statement (asking is better than telling). We have found if you can handle the PIT, you can handle any seller or buyer.

Have a set time and place each week. Have a topic. Have one person (rotating) be responsible for each meeting. Send a reminder email the day before. Engage in deliberate practice.

Week 1: Pre-Listing Interview. Rehearse the questions for the pre-listing interview. Have the person playing the role of the seller call in on a cell phone.

Week 2: Pre-Listing Packet. Bring YOUR pre-listing packet and be prepared to share.

Week 3: Listing Interview – Practice the 16-step Seller Process.

Week 4: Practice the Listing Interview again.

Week 5: Comparative Market Analysis. As a group, identify a property and each one of you will prepare a CMA for it. Compare notes and learn from each other.

Week 6: Pricing Objections – The PIT (practice the scripts in the Ninja Manual).

Week 7: Commission Objections – The PIT (practice the scripts in the Ninja Manual).

Week 8: Negotiation Skills – The PIT.

Week 9: Seller follow-up – bring systems you are using for follow up once you have the listing. Rehearse the 5-step calling process.

Week 10: FLOW. Bring your flow calendar and your weekly activity logs. Compare what is working.

Week 11: Ninja Mindset. Bring your daily ritual and your strategies to stay in the “performance quadrant”.

Week 12: Your Business Plan. Bring your business plan and share it with others.

Week 13: Buyer Interview – practice the 10-step Buyer Process.

Week 14: Field Trip – Practice showing homes to buyers.

Week 15: Closing Questions. Practice the Ninja “Soft Closing” Questions.

Week 16: Closing Questions. Practice the “Scratch Pad” (Practice Contract) close.

MINDSET

What is one simple mind shift that will potentially double your income? How about:

"Your next transaction is imbedded in this transaction."

Pay attention, ask good questions, and listen. There are more people who want help. Maybe it's the inspector who wants to buy, the lender who wants to sell, or this customer who also wants to invest? The most productive Ninjas see the hidden and subtle. Look closer. There are more transactions than you are seeing...

Thanks for putting the humanity back in selling. The Ninja program reminds me of emergency directions on an airplane: put your own oxygen mask on, so that you can better help others. That's what the notes, affirmations, and mastery are to me: oxygen.

SKILLSET

We are in a generation of customization. We tweak almost everything to fit our needs and our personalities... Just like a recipe. Even if we include all of the same ingredients but don't prepare it as specified, the end result may not turn out as originally desired. The same concept can be applied with the **Ninja Buyer's Process**... I have noticed that those who alter the process do not achieve the same results. Those who follow the steps, *in order*, with ample time for each step end up showing less property write more contracts.

MASTERS IN THE ART OF LIVING

*People who are masters in the art of living
make little distinction between*

*their work and their play,
their labor and their leisure,
their mind and their body,
their information and their recreation,
their love and their religion.*

*They hardly know which is which.
They simply pursue their vision of excellence
at whatever they do, leaving others to decide
whether they are working or playing.*

To them they are always doing both.

Is the Visual Pricing System easy to use? How do I use it to create charts?

To use the Visual Pricing System you login to your MLS and export data to a file. Then you run the Visual Pricing System and read in the data. Several of the graphs are automatically created at that time (Odds of Selling, Time to Sell, Buying Patterns, MLS data forms, and the Real Estate Pond). Additional graphs will be created based on specific properties you want to focus on (Scattergram Pricing and Competitive PriceLines).

I've never exported data from my MLS, how do I do that?

Exporting data from your MLS differs for each MLS and is documented on our website. You can visit tinyurl.com/f1MLS to see how to export data from your MLS.

How do I find out more about the Visual Pricing System?

There are several online tutorial files, all about 5-10 minutes long which will show you how to use the Visual Pricing System. While these tutorials are great to learn how to use the Visual Pricing System, they also work great as demos.

To see Visual Pricing tutorials go to tutorial.focus1st.com

Does the Visual Pricing System work on my MLS?

We support over 150 MLS throughout the US and Canada. To see if your MLS is supported see: tinyurl.com/f1MLS. If your MLS is not listed. We can quickly and easily support your MLS. Address your email to sales@focus1st.com and include your contact information. We will contact you and have you up and working shortly.

What do I need to have to run the Visual Pricing System?

You will need a PC running Windows XP or later, and Microsoft Excel 2003 or later.

Does the software work in a MAC environment?

Yes the Visual Pricing system does work on the MAC. To run the Visual Pricing system you will need to have Microsoft Excel 2011 for the MAC.

What is the cost for the Visual Pricing System?

The Visual Pricing System is a subscription based service. It is \$25 per month or you can purchase the year for \$250 (you get two months free with this option).

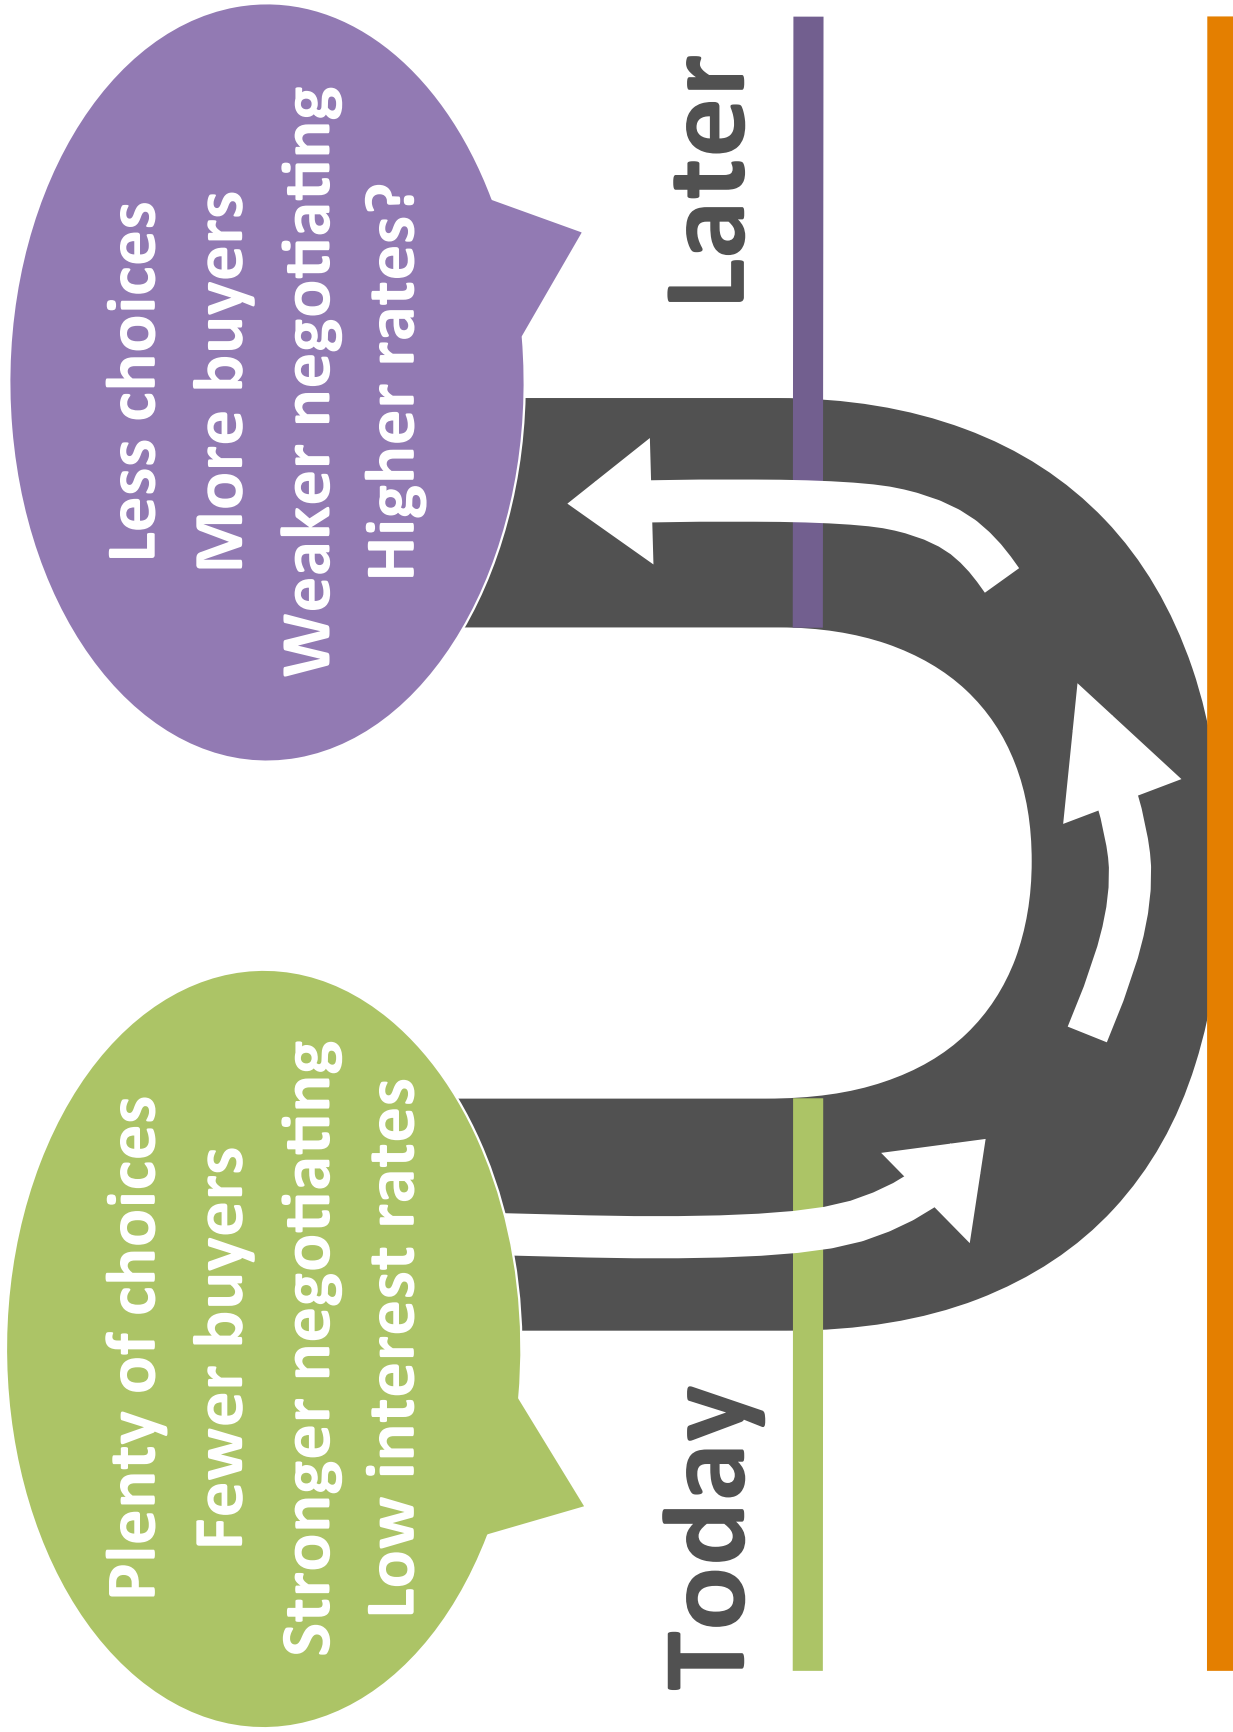

How to I purchase the Visual Pricing System?

Go to www.focus1st.com and select the "Visual Pricing for Realtors" option.

Focus 1st, LLC is owned by Tim and Joanne DeLeon, who are Realtors with The Group, Inc. Real Estate in Fort Collins, CO. Tim is an Electrical Engineering graduate who worked at Hewlett-Packard for 25 years, prior to selling Real Estate. Tim and Joanne recognize that MLS and Public Records information is available to consumers via the internet. Their goal is to help Realtors® "Raise the Bar" and to improve the knowledge, expertise, and professionalism of Realtors throughout the nation.
